1. CONTENTS

No changes/adaptations have been made to this section.

2. TEACHING-LEARNING METHODOLOGY. EDUCATIONAL ACTIVITIES

Yes, some changes/adaptations have been made to this section:

The laboratory work in the facilities of the Escuela Politécnica Superior has had to be eliminated, being replaced by the student's own work at home or by remote simulation, when possible. Tutoring and monitoring of students is carried out using telematic means including Blackboard Collaborate or Teams.

3. ASSESSMENT: PROCEDURES, ASSESSMENT AND QUALIFICATION CRITERIA

Yes, some changes/adaptations have been made to this section:

In the examination and presentation of the TFG, the recommendations and instructions made by the rectorate for the online presentation are followed ([Enlace](#)). The published rubrics will be adapted to the online presentation mode.

4. COMMENTS

Exceptionally, the possibility that TFG examinations were carried out before all outstanding credits have been completed is considered; in this case, the student may know the TFG grade, but it cannot be incorporated into the record until all credits have been completed and

evaluated. In the event of not completing the credits in the current academic year, the student will have to defend the TFG again in future calls.
